

Jeyco (1992) Pty Ltd Environmental Policy

Jeyco is a wholly Australian owned company specialising in the supply of quality mooring and towing equipment for the offshore, commercial marine, aquaculture and fishing industries as well as being a major supplier to the military, both in Australia and overseas.

Jeyco Safety Management System shall ensure a ***commitment to plan and perform activities so that adverse effects on the environment are avoided or kept as low as reasonably practicable.***

Jeyco environmental plan acknowledges the adverse impacts human activity can impose and takes actions to control & minimise degradation of our natural environment while at the same time supporting its recovery and repair.

Jeyco environmental plan recognises its responsibility to practise and promote behaviours that support activities which contribute to our environmental sustainability within our community and also on a national scale. All planning is to be based on risk assessments and approved benchmarks, to comply with ISO 14001 and relevant legislation.
