

Jeyco (1992) Pty Ltd Quality Policy

Certified ISO 9001 by

Jeyco (1992) Pty Ltd is a stockist and supplier of Mooring and Rigging Equipment including the Stingray and Holdfast range of Anchors to the ship building, commercial marine and offshore industries in Australia and abroad. Jeyco is committed to customer satisfaction, and endeavours to provide the best possible equipment to its clientele.

Jeyco's Quality Management System shall *ensure complete confidence in the products and services provided, and customer satisfaction:*

- *Getting things right first time*
- *Continuous improvement in all areas*
- *Proactive operating philosophy*

In view of improvising the quality of service, Jeyco has embraced Quality Assurance principals, and a Quality Management System to comply with ISO 9001 Standard is used, reviewed and continuously improved to cover the overall activities of the organisation.

All employees of the organisation have been inducted to Jeyco Quality Management System and the management encourages the employees to follow the Quality Principals towards meeting the Company objectives, and they are urged to make any improvement suggestions to organisational activities.
